

**MOUNTING INSTRUCTIONS MAGURA BRAZE ON KIT.**

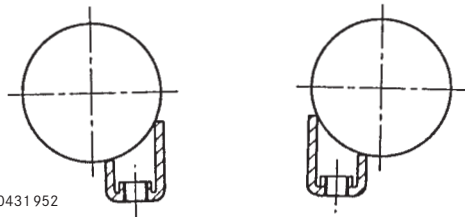

(Mainly used on trial bikes)

6 mm vertical travel of clamps onto the braze-ons

**Attention!**

Take care of correct distance "D": 26.5 - 30 mm including a gap of 2 mm on both sides between rim flanc and brake pad

Alternative mounting possibilities of the braze-ons

**Attention!**

There is neither a quick release option nor a brake booster one with the MAGURA braze-ons!
